

ST. BART'S ACADEMY TRUST

Enrichment and Sustainability Event Calendar 2023-24

THE ST. BART'S
ACADEMY
TRUST

Enrichment and Sustainability Event Calendar 2023-2024

A series of virtual events is planned for the upcoming year, the aim is to build connections and community cohesion across the Trust, giving our young people the opportunity to share **Enjoyment** of learning, to live life together in all its fullness.

Most **enrichment activities** are designed to run outside the school day, to support the work you are doing, without impacting on curriculum time. Hopefully this will develop a sense of belonging across the Trust and allow individual pupils to shine. The activities could be completed at home or as part of an after school or lunch club, dependent on your context. Further details and dates for submission to follow early in the academic year.

A further series of **virtual climate, sustainability and biodiversity events**, led by sustainability leads in each academy will support embedding sustainability in all our schools and our drive towards carbon net zero. Half a day per half term will be sufficient, with ongoing daily reinforcement from SLT, Staff and pupils, to foster and embed positive energy and water saving behaviours.

Enrichment and Community Cohesion

Autumn 1
KS2 Short Story
Competition

Summer 2
Virtual Athletics
Tournament

Autumn 2
KS1 Poetry
Competition

2023
2034

Spring 2
Summer 1
EYFS Potato
Growing
Challenge

Spring 1
Whole School
Garden Birds
Art Competition

Spring 2
TT Rockstars
Tournament

Sustainability and Biodiversity Events

SUSTAINABILTY NETWORK

The St. Bart's Sustainability Network will be an opportunity to explore the *DfE Sustainability and climate change: a strategy for the education and children's services systems* and consider how we can embed the principles in our own settings.

Network members will be able to share best practice in environmental and climate education, eco schools work and ways to develop biodiversity in the school grounds.

Together, we will develop climate action plans, raise awareness and create a culture that prioritises sustainability.

Network Dates for 2023-24

Autumn 1

Tuesday 26th September 2023

Autumn 2

Tuesday 14th November 2023

Spring 2024

Tuesday 6th February 2024

Summer 2024

Tuesday 4th June 2024

All meetings will take place online from 1.30 – 3.30pm with links sent out nearer the time.

For further information please contact Julie Rowlandson at jrowlandson@sbmat.org

To book your place click on the link icon on the left and complete your details.

*I found this very fun.
I enjoyed competing
against other schools.
This made me want to
give 100%.*

Feedback from pupils who took part in our virtual athletics tournament in Summer 2023

*I used my previous
learning in P.E. to support
this completion. I used my
speed, agility and
communication skills.*

Maisie

*I liked how fun it was to
compete not just against
other schools but against
myself. I enjoyed how
much teamwork there
was, even though the
events were individual.*

Alfie-Jac
